

Day 1 December 4 (Thu)

Room	Venue	Time																							
		8		9		10		11		12		13		14		15		16		17		18		19	
		00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30
Room1	Himegin Hall	1F	Main Hall			Opening		Symposium 1 How should medical institutes and researchers face to the revised ethical guidelines for medical/epidemiological research involving human subjects?	Invited Lecture Translation from preclinical studies to clinical outcome:Focusing on the prediction of pharmacokinetic properties of drugs					Debriefing Session of Trainees (Back from Overseas)	Foundation Award Lecture					Symposium 8 Tips for Investigator initiated clinical trials from planning to NDA ~successful experience learned from achieved team~					
Room2			Sub Hall					Symposium 2 Merits of new biomarkes for drug treatment in clinical practice	Educational Lecture 1 The Collaboration between Medical and Pharmaceutical Field for Innovative Drug Development	Luncheon Seminar 1							General meeting of members			Symposium 9 Must-do list for boosting First-in-Human study in Japan					
Room3		2F	Shinju A					Symposium 3 "Japan's NIH":The Launch of AMED (Japan Agency for Medical Research and Development)	Educational Lecture2 Utilization of patient-level clinical trial data: Drug development and regulatory review	Luncheon Seminar 2											Symposium 10 Monitoring and Audit in Investigator-initiated Clinical Trials: Current Practice and Challenges				
Room4			Shinju B					Symposium 4 Clinical Research Network ~ Aiming to establish a more functional research network in Japan	Educational Lecture3 Population pharmacokinetic/pharmacodynamic analysis in clinical study	Luncheon Seminar 3											Symposium 11 Pharmacometrics, as a Field of Clinical Pharmacology 2 ~ Pharmacometrics is focusing beyond pharmacokinetics ~				
Room5		3F	Conference room 6					Symposium 5 Clinical Pharmacology of Pharma and Food sharing Common Origin	Educational Lecture4 Practical issues surrounding research ethics committees	Luncheon Seminar 4											Symposium 12 The importance of domestic and international collaboration in the orphan drug development				
Room6			Conference room 8					Symposium 6 Research Forefront of ion channels and transporters aiming at new drug development													Symposium 13 Issues in clinical trial in mental disorders				
Room7	Himegin Hall annex	1F	Conference room 11					Symposium 7 Present status of molecular-targeted agents in cancer therapy													Symposium 14 A New Era for Anticoagulation in Atrial Fibrillation				
Room8	Kango Kenshu Center	3F	Dai-Kenshu shitsu					9:00-9:54 Free paper Oral 1	9:57 - 10:51 Free paper Oral 2									Hands-on Seminar			16:30 - 17:33 Free paper Oral 3	17:36 - 18:30 Free paper Oral 4			
Poster	Himegin Hall	1F	Lobby	Poster mounting	Poster exhibition								Presentation	Poster exhibition						Poster removal					

Day 2 December 5 (Fri)

Room	Venue		8		9		10		11		12		13		14		15		16		17		18		19	
			00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30	00	30
Room1	Himegin Hall	1F	Main Hall			Symposium 15 PMDA Session: Challenges for the future drug regulation		Educational Lecture5 Quality assurance of investigator-initiated clinical trials				Special Lecture Medical Drugs from past to future -Expectation on Japanese Society of Clinical Pharmacology and Therapeutics		Presidential Lecture				Symposium 22 Transparency of Clinical Studies (International Symposium)				General assembly				
Room2			Sub Hall			Symposium 16 Findings from meta-analysis: believe or not?		Educational Lecture6 To send unapproved or off-labeled drugs with high medical needs to patients		Luncheon Seminar 5						Symposium 23 Unmet medical needs in central nervous system diseases										
Room3		2F	Shinju A			Symposium 17 Current topics of pediatric clinical trials and drug evaluation		Educational Lecture7 Progress of Pharmacogenomics and its Application to Clinical Pharmacology		Luncheon Seminar 6												Congress Dinner				
Room4			Shinju B			Symposium 18 Expansion of TDM world with new technologies and opportunities for clinical pharmacology study		Educational Lecture8 The skill for CRC and PM to evaluate drug adverse events		Luncheon Seminar 7																
Room5		3F	Conference room 6			Symposium 19 Drug interaction, from the point of view of time		Educational Lecture9 Off-label use of drugs in children		Luncheon Seminar 8								Symposium 24 Understanding of tissue specific and comprehensive basic function of drug transporters and its application to the clinical situations								
Room6			Conference room 8			Symposium 20 Enhancing Non-Clinical and Clinical Mutual Scientific Interpretation of Drug Safety		Educational Lecture10 Pharmaceutical Products' surplus of imports over exports in Japan		Luncheon Seminar 9						Symposium 25 Clinical Pharmacology at the Bedside I										
Room7	Himegin Hall annex	1F	Conference room 11			Symposium 21 Study coordination of Clinical Trial												Symposium 26 Drawing a Self-portrait of JSCPT for tomorrow								
Room8	Kango Kenshu Center	3F	Dai-Kenshu shitsu			9:00 - 10:12 Free paper Oral 5	10:15 - 11:00 Free paper Oral 6											15:40-16:43 Free paper Oral 7	16:46-17:40 Free paper Oral 8							
Poster	Himegin Hall	1F	Lobby	Poster mounting		Poster exhibition										Presenta tion	Poster exhibition	Poster removal
