

October 29(Day1)

Room 1 (Main Hall, 1F Yonago Culture Hall)

15:30 - 15:40

Opening Remarks

Sponsored Seminar

15:40-16:30

Chemotherapy for prostate cancer

Sponsored by Sanofi K.K.

Chairpersons **Yoshiyuki Kakehi** *Department of Urology, Kagawa University Faculty of Medicine, Japan*

Wun-Jae Kim *Department of Urology, Chungbuk National University Hospital, Korea*

SS-1 Chemotherapy for CRPC

Jae Young Joung(Korea)
National Cancer Center

SS-2 Chemotherapy for mHSPC ~optimal patient selection~

Naoki Terada(Japan)
Department of Urology, Miyazaki University

SS-3 Perioperative chemotherapy for high-risk prostate cancer

Tomomi Kamba(Japan)
Department of Urology, Kumamoto University Graduate School of Medical Sciences

Evening Seminar 1

16:40-17:30

Topics and advanced treatment of OAB

Sponsored by Astellas Pharma Inc.

Chairpersons **Hidehiro Kakizaki** *Department of Renal and Urologic Surgery, Asahikawa Medical University, Japan*

Seong Jin Jeong *Department of Urology, Seoul National University Bundang Hospital, Korea*

ES1-1 Current topics in overactive bladder

Takahiko Mitsui(Japan)
Department of Urology, University of Yamanashi Graduate School of Medical Sciences

ES1-2 Intravesical injection of botulinum toxin treatment for overactive bladder

Masashi Honda(Japan)
Division of Urology, Department of Surgery, Tottori University Faculty of Medicine

ES1-3 Sacral neuromodulation in chronic LUTS - Clinical results and expanding indications

Hana Yoon(Korea)
Department of Urology, Ewha Womans University College of Medicine

Room 2 (Event Hall, 1F Yonago Culture Hall)

Evening Seminar 2

16:40-17:30

Photodynamic diagnosis for urothelial cancer

Chairpersons **Yoshihiko Hirao** *Emeritus Professor at Nara Medical University, Japan/Osaka Gyoumeikan Hospital, Japan*

Ho Kyung Seo *Department of Urology, Center for Urologic Cancer, Hospital National Cancer Center, Korea/Division of Tumor Immunology, Research Institute, National Cancer Center, Korea/Department of Cancer Biomedical Science, Korea*

ES2-1 Current status and perspective of PDD TURBT

Hideyasu Matsuyama(Japan)
Department of Urology, Graduate School of Medicine, Yamaguchi University

ES2-2 Utility and safety of 5-aminolevulinic acid in transurethral resection of the bladder tumor: real-world experience

Yasuhisa Fujii(Japan)
Department of Urology, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University

ES2-3 5-aminolevulinic acid-mediated photodynamic diagnosis for upper tract urothelial carcinoma

Hideo Fukuhara(Japan)
Department of Urology, Kochi Medical School

October 30 (Day2)

Room 1
(Main Hall, 1FYonago Culture Hall)

Symposium 1

8:30-9:20

Prostate cancer diagnosis and focal therapy

Sponsored by Takeda Pharmaceutical Company Limited

Chairpersons **Mototsugu Oya** *Department of Urology, Keio University School of Medicine, Japan*

Jaemann Song *Emeritus Professor of Yonsei University, Korea/Urology, Jeju Halla General Hospital, Korea*

SY1-1 Prostate cancer screening: PSA and PHI **Jin Seon Cho**(Korea)
Department of Urology, Hallym University Faculty of Medicine

SY1-2 Active surveillance for early prostate cancer-PRIAS-JAPAN- **Mikio Sugimoto**(Japan)
Department of Urology, Kagawa University Faculty of Medicine

SY1-3 Lesion targeted focal cryoablation for MRI-visible clinically significant cancer **Osamu Ukimura**(Japan)
Dept Urology, Kyoto Prefectural Univ of Medicine

Symposium 2

9:30-10:30

RARP, advanced techniques

Sponsored by AstraZeneca K.K.

Chairpersons **Shin Egawa** *Jikei University School of Medicine, Japan*

Akinobu Gotoh *Department of Education for Medical Research Base, Hyogo College of Medicine, Japan*

SY2-1 Urinary incontinence following robot-assisted radical prostatectomy: Intraoperative techniques to improve surgical outcome **Yoshiyuki Kojima**(Japan)
Department of Urology, Fukushima Medical University School of Medicine

SY2-2 Retzius sparing robot-assisted radical prostatectomy **Cheol Kyu Oh**(Korea)
Inje University

SY2-3 Robot-assisted radical prostatectomy of huge prostate with prominent median lobe **Cheol Kwak**(Korea)
Department of Urology, Seoul National University Hospital / Department of Urology, Seoul National University College of Medicine

Symposium 3

10:40-11:30

LUTS/BPH

Chairpersons **Momokazu Gotoh** *Japan Community Health Care Organization, Chukyo Hospital, Japan*

Ji Youl Lee *Department of Urology, Seoul St. Mary's Hospital, Korea/President of Smart Hospital, Korea*

SY3-1 Pharmacotherapy recommended in Japanese clinical guidelines for male LUTS/BPH **Noritoshi Sekido**(Japan)
Department of Urology, Toho University Ohashi Medical Center

SY3-2 Drug therapy for male LUTS/BPH in Korea **Aram Kim**(Korea)
Department of Urology, Konkuk University Medical Center, Konkuk University School of Medicine

SY3-3 The new standard surgical treatment for benign prostatic hyperplasia **Nobuhiro Haga**(Japan)
Department of Urology, Faculty of Medicine, Fukuoka University

Special Lecture

11:40-12:20

Chairpersons **Seiji Naito** *Department of Urology, Harasanshin Hospital, Japan*

Jae-Seung Paick *Department of Urology, Mediplex Sejong Hospital, Korea*

SL-1 Evolution of anterior urethral strictures management **Akio Horiguchi**(Japan)
National Defense Medical College

SL-2 Changes of LUTS after midurethral sling for the stress urinary incontinence in female **Myung-Soo Choo**(Korea)
Department of Urology, Asan Medical Center

Luncheon Seminar 1

12:30-13:20

Novel development of High risk prostate cancer treatment

Sponsored by Janssen Pharmaceutical K.K./Nippon Shinyaku

Chairpersons	Osamu Ogawa <i>Japanese Red Cross Otsu Hospital, Japan</i>	
	Han Yong Choi <i>Emeritus Professor of Urology, Sungkyunkwan University School of Medicine, Korea/ Department of Urology, Kangbuk Samsung Hospital, Korea</i>	
LS1-1	Diagnosis of oligometastatic prostate cancer	Choung Soo Kim (Korea) <i>Department of Urology, Asan Medical Center, University of Ulsan</i>
LS1-2	How to improve oncological outcome of high-risk prostate cancer	Chikara Ohyama (Japan) <i>Department of Urology, Hirosaki University</i>
LS1-3	Radiation therapy for locally advanced and oligometastatic prostate cancer	Kazuhiro Suzuki (Japan) <i>Department of Urology, Gunma University Graduate School of Medicine/ Gunma University Heavy Ion Medical Center</i>

President Lecture

14:30-15:10

Present and future vision

Chairpersons	Masato Fujisawa <i>Department of Urology, Kobe University Graduate School of Medicine, Japan</i>	
	Hanjong Ahn <i>Department of Urology, Asan Medical Center, Korea</i>	
PL-1	JUA president lecture	Norio Nonomura (Japan) <i>Department of Urology, Osaka University Graduate School of Medicine</i>
PL-2	Present and future vision of The Korean Urological Association (KUA)	Sang Don Lee (Korea) <i>Department of Urology, Pusan National University Yangsan Hospital</i>

Symposium 4

15:20-16:10

RCC

Sponsored by ONO PHARMACEUTICAL CO., LTD./Bristol-Myers Squibb K.K.

Chairpersons	Masatoshi Eto <i>Department of Urology, Graduate School of Medical Sciences, Kyushu University, Japan</i>	
	Yoshihiko Tomita <i>Department of Urology, Niigata University Medical and Dental Hospital, Japan</i>	
SY4-1	Renal function change after partial nephrectomy	Cheryn Song (Korea) <i>Department of Urology, University of Ulsan College of Medicine, Asan Medical Center</i>
SY4-2	Future of retroperitoneal robotic partial nephrectomy	Seongil Seo (Korea) <i>Department of Urology, Samsung Medical Center, Sungkyunkwan University</i>
SY4-3	Systematic surgical approach for RCC with IVC thrombus	Hideaki Miyake (Japan) <i>Department of Urology, Hamamatsu University School of Medicine</i>

Symposium 5

16:20-17:20

Robotic Surgery

Chairpersons	Tomonori Habuchi <i>Department of Urology, Akita University Graduate School of Medicine, Japan</i>	
	Mario GT Sung <i>Department of Urology, Dong-A University, Korea</i>	
SY5-1	Urinary diversion after RARC	Seok Ho Kang (Korea) <i>Department of Urology, Korea University Hospital</i>
SY5-2	Robotic partial nephrectomy for complex case: experiences from multiport and SP da Vinci system	Woong Kyu Han (Korea) <i>Yonsei University College of Medicine, Severance Hospital</i>
SY5-3	Robotic pyeloplasty in Japan	Takahiro Yasui (Japan) <i>Department of Nephro-urology, Nagoya City University Graduate School of Medical Sciences</i>

Symposium 7

17:30-18:20

Urolithiasis

Chairpersons	Akihiro Kawauchi <i>Department of Urology, Shiga University of Medical Science, Japan</i>	
	Ill Young Seo <i>Department of Urology, Wonkwang University Hospital, Korea</i>	
SY7-1	Basic research toward dissolution therapy for calcium oxalate stones	Atsushi Okada (Japan) <i>Department of Nephro-urology, Nagoya City University Graduate School of Medical Sciences</i>
SY7-2	Prone ECIRS (endoscopic combind intrarenal surgery): Why not ?	Deok Hyun Han (Korea) <i>Sungkyunkwan University, Samsung Medical Center</i>
SY7-3	Evolving educational methods in endourological stone surgery	Shuji Isotani (Japan) <i>Department of Urology, Juntendo University, Graduate School of Medicine</i>

Room 2 (Event Hall, Yonago Culture Hall)

Luncheon Seminar 2

Breakthrough of UC treatment

Chairpersons	Masayuki Nakagawa <i>Department of Urology, Imamura General Hospital, Japan/ Department of Urology, Kagoshima University Faculty of Medicine, Japan</i>
	Sun Il Kim <i>Department of Urology, Ajou University School of Medicine, Korea</i>

12:30-13:20

Sponsored by MSD K.K.

LS2-1-1	Robotic-assisted radical cystectomy (RARC) & intracorporeal urinary diversion (ICUD) at Fujita Health University	Ryoichi Shiroki (Japan) <i>Department of Urology, Fujita Health University School of Medicine</i>
LS2-1-2	Sequential therapy for metastatic urothelial carcinoma in JAPAN 2021	Hiroyuki Nishiyama (Japan) <i>Department of Urology, Faculty of Medicine, Tsukuba University</i>

13:20-13:40

LS2-2	New immunotherapy for non-muscle invasive bladder cancer	Byong Chang Jeong (Korea) <i>Department of Urology, Sungkyunkwan University College of Medicine/ Department of Urology, Samsung Medical Center</i>
-------	---	--

Symposium 6

16:20-17:20

Sexual medicine

Chairpersons	Shigeo Horie <i>Department of Urology, Juntendo University Graduate School of Medicine, Japan</i>
	Du Geon Moon <i>Department of Urology, Korea University College of Medicine, Korea</i>

SY6-1	The management for erectile dysfunction with prostatic disease	Mitsuru Noguchi (Japan) <i>Department of Urology, Saga University Faculty of Medicine</i>
SY6-2	Treatment options for non-responders to PDE5 inhibitors	Soo Woong Kim (Korea) <i>Department of Urology, Seoul National University College of Medicine</i>
SY6-3	Sexual dysfunction after robot-assisted radical prostatectomy	Nobuyuki Hinata (Japan) <i>Department of Urology, Hiroshima University Graduate School of Biomedical and Health Sciences</i>

Symposium 8

17:30-18:20

SUI and prolapse

Chairpersons	Naoya Masumori <i>Department of Urology, Sapporo Medical University School of Medicine, Japan</i>
	Kyu-Sung Lee <i>Department of Urology, Samsung Medical Center, Sungkyunkwan University School of Medicine, Korea</i>

SY8-1	Time to rethink traditional SUI surgeries (PVS, Burch colposuspension)	Jeong Gu Lee (Korea) <i>Department of Urology, Korea University College of Medicine</i>
SY8-2	Robotic sacrocolopexy/hysteropexy for pelvic organ prolapse	Kwang Jin Ko (Korea) <i>Department of Urology, Samsung Medical Center, Sungkyunkwan University School of Medicine</i>
SY8-3	Comparison of standard method and tacker combination method of laparoscopic sacrocolopexy for pelvic organ prolapse	Satoru Takahashi (Japan) <i>Department of Urology, Nihon University School of Medicine</i>

Oral 1

8:30-9:20

Chairpersons	Hirotsugu Uemura <i>Department of Urology, Kindai University Faculty of Medicine, Japan</i>
	Tae Gyun Kwon <i>Department of Urology, Kyungpook National University, Korea</i>

O1-1	Significance of sarcopenia in patients with metastatic renal cell carcinoma who underwent nivolumab	Hidetoshi Ueki (Japan) <i>Kobe University Graduate School of Medicine</i>
O1-2	Efficacy of nivolumab in metastatic renal cancer after first-line treatment by TKIs	Daigo Funakoshi (Japan) <i>Nihon Department of Urology, University School of Medicine</i>
O1-3	Treatment experience with cabozantinib for metastatic renal cell carcinoma	Takuto Kusaba (Japan) <i>Department of Urology, Shiga University of Medical Science Hospital</i>
O1-4	Infiltrative aggressive renal cell carcinoma may be predicted by lowered ipsilateral kidney function	Jang Hee Han (Korea) <i>Department of Urology, Seoul National University Hospital, Seoul National University College of Medicine</i>
O1-5	Tubular damage marker is predictive classifier for distinguishing pathological upstaged RCC	Jang Hee Han (Korea) <i>Department of Urology, Seoul National University Hospital, Seoul National University College of Medicine</i>
O1-6	Optimal timing for combined therapy with axitinib and ICI in a mouse renal cell carcinoma model	Hiromitsu Watanabe (Japan) <i>Department of Urology, Hamamatsu University School of Medicine</i>
O1-7	Adrenal malignancies: Analysis of hospital-based cancer registry data in Japan	Ichiro Chihara (Japan) <i>Department of Urology, University of Tsukuba</i>

Oral 2

9:30-10:20

Chairpersons **Hiroshi Kitamura** *Department of Urology, Faculty of Medicine, University of Toyama, Japan*

Kwangsung Park *Urology, Chonnam National University Hospital, Korea*

- O2-1** Comparison of clinical outcomes in patients with mCSPC treated with upfront abiraterone or docetaxel **Shintaro Narita**(Japan)
Department of Urology, Akita University School of Medicine
- O2-2** Toxicities of stereotactic body radiation therapy for prostate cancer with and without implantation **Hiroaki Myoga**(Japan)
Department of Surgery, Division of Urology, Tochigi Medical Center Shimotsuga Faculty
- O2-3** Imipramine delays clinical progression of prostate cancer **Seung-hwan Jeong**(Korea)
Department of Urology, Seoul National University Hospital
- O2-4** Radical prostatectomy without pelvic lymph node dissection for localized prostate cancer **Mirii Harada**(Japan)
Department of Urology, University of Occupational and Environmental Health Japan
- O2-5** Effect of upfront intensive therapy on prognosis in metastatic castration-sensitive prostate cancer **Shingo Hatakeyama**(Japan)
Department of Urology, Hirosaki University Graduate School of Medicine
- O2-6** BSI of bone scintigraphy and detection of CTCs are predictive factors on enzalutamide for mCRPC **Masayoshi Nagata**(Japan)
Department of Urology, Juntendo University, Graduate School of Medicine
- O2-7** PI-RADS v2 findings can predict pathological extraprostatic extension after radical prostatectomy **Isao Hara**(Japan)
Department of Urology, Wakayama Medical University

Oral 3

10:30-11:20

Chairpersons **Yasuhisa Fujii** *Department of Urology, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University, Japan*

Chun Il Kim *Keimyung University Dongsan Hospital, Korea*

- O3-1** Relationship of detrusor overactivity with detrusor PDGFR alpha positive cell in spinal cord injury **Ken Lee**(Japan)
Department of Urology, Kyushu University
- O3-2** Muscarinic receptor binding and inhibition of cholinergic contraction in rat bladder by mirabegron **Shizuo Yamada**(Japan)
Center for Pharma-Food Research, Graduate School of Pharmaceutical Sciences, University of Shizuoka
- O3-3** Adipose-derived stem cell sheet transplantation therapy in a rat detrusor underactivity model **Shogo Teraoka**(Japan)
Department of Urology, Tottori University Faculty of Medicine
- O3-4** Role of urothelial Cx43 in the urinary bladder: analysis of the urothelium-specific Cx43 KO mouse **Jin Kono**(Japan)
Department of Urology, Graduate School of Medicine, Kyoto University
- O3-5** Functional urethral length determines early recovery of continence after radical prostatectomy **Seung-hwan Jeong** (Korea)
Department of Urology, Seoul National University Hospital
- O3-6** Effect of keishibukuryogan combined with tocopherol on sperm parameters in patients with varicoceles **Tepei Takeshima**(Japan)
Department of Urology, Reproduction Center, Yokohama City University Medical Center
- O3-7** Three-dimensional analysis of age-related changes in mouse testis **Taito Nakano**(Japan)
Integrative Cancer Therapy and Urology, Division of Cancer Medicine, Graduate School of Medical Science, Kanazawa University

Oral 4

11:30-12:20

Chairpersons **Isao Hara** *Department of Urology, Wakayama Medical University, Japan*

Young Goo Lee *Department of Urology, Kangnam Sacred Heart Hospital, Hallym University, Korea*

- O4-1** A molecular signature of prognostic and therapeutic subtype of NMIBC responsive to BCG therapy **Seok Joong Yun**(Korea)
Department of Urology, College of Medicine, Chungbuk National University
- O4-2** The long arm of chromosome 9 contains a gene(s) that regulates PPARγ in bladder cancer **Ryutaro Shimizu**(Japan)
Department of Surgery, Division of Urology, Tottori University Faculty of Medicine
- O4-3** Prognostic impact of preoperative psoas muscle hounsfield unit at radical cystectomy **Yusuke Sugino**(Japan)
Department of Nephro-Urologic Surgery and Andrology, Mie University Graduate School of Medicine
- O4-4** Erectile and ejaculatory functions after bladder-sparing therapy against MIBC **Yusuke Uchida**(Japan)
Department of Urology, Tokyo Medical and Dental University
- O4-5** Implementation of ERAS protocol in RARC with ICUD **Kosuke Kitamura**(Japan)
Department of Urology Juntendo University, Nerima Hospital
- O4-6** Experience of PDD-assisted TURBT with 5-aminolevulinic acid at University of Tsukuba Hospital **Kosuke Kojo**(Japan)
Department of Urology, Faculty of Medicine, University of Tsukuba
- O4-7** Perioperative outcomes of intracorporeal versus extracorporeal urinary diversion following robot-assisted radical cystectomy **Hyeong Dong Yuk**(Korea)
Department of Urology, Seoul National University Hospital

Chairpersons	Hiroaki Shiina <i>Shimane University Hospital, Japan</i>	
	Hideki Enokida <i>Department Urology, Graduate of School of Medical and Dental Sciences, Kagoshima University, Japan</i>	
05-1	The technique of single site laparoscopic sacrocolpopexy	Kimihiko Masui (Japan) <i>Department of Urology, Graduate School of Medicine, Kyoto University</i>
05-2	Laparoendoscopic single-site surgery for the urachal remnant through a suprapubic port	Masanobu Shiga (Japan) <i>Department of Urology, Faculty of Medicine, University of Tsukuba.</i>
05-3	Low free testosterone level predict cardiovascular event in Japanese men with coronary risk factors	Yuki Kato (Japan) <i>Department of Integrative Cancer Therapy and Urology, Kanazawa University Graduate School of Medical Science</i>
05-4	Usefulness of computed tomography split renal volume assessment in living kidney donors	Nobufumi Ueda (Japan) <i>Department of Urology, Faculty of Medicine, Kagawa University</i>
05-5	Clinical analysis of urosepsis caused by ureteral calculi	Ryoma Nishikawa (Japan) <i>Department of Urology, Tottori Prefectural Central Hospital</i>
05-6	The impact of protein mapping in human kidney stone by multiple multifaceted structure analysis	Yutaro Tanaka (Japan) <i>Department of Nephro-urology Nagoya City University, Graduate School of Medical Sciences</i>
05-7	Study on nerve-sparing methods and postoperative erectile ability in RARP	Toshiyuki China (Japan) <i>Department of Urology, Juntendo University</i>
05-8	Hypospadias repair during adulthood	Hiroshi Asanuma (Japan) <i>Department of Urology, Keio University School of Medicine</i>

Chairpersons	Takahiro Inoue <i>Department of Urologic-Surgery and Andrology, Mie University Graduate School of Medicine, Japan</i>	
	Koichiro Wada <i>Shimane University Faculty of Medicine, Japan</i>	
06-1	The anti-tumor effect of ultrasound irradiation for the prostate cancer	Koki Maeda (Japan) <i>Department of Urology, Kobe University Graduate School of Medicine</i>
06-2	Combined AMACR inhibition and docetaxel reduce cell proliferation in AR-V7-positive PCa cells	Atsuhiko Yoshizawa (Japan) <i>Department of Urology, Fujita Health University</i>
06-3	Local radiotherapy is associated with mosaic loss of chromosome Y in prostate cancer patients	Takuro Kobayashi (Japan) <i>Department of Urology, Juntendo University Graduate School of Medicine</i>
06-4	Serum cell-free DNA as a marker for invasive evaluation in total cystectomy	Takuma Narita (Japan) <i>Hirosaki University Graduate School of Medicine</i>
06-5	Significance of the Ki67 index and PD-L1 expression after radical cystectomy in patients with MIBC	Hiroataka Horiguchi (Japan) <i>Department of Urology, Hirosaki University Graduate School of Medicine</i>
06-6	Pembrolizumab achieves similar oncological outcomes in upper and lower tract urothelial carcinoma	Naotaka Nishiyama (Japan) <i>Department of Urology, Faculty of Medicine, University of Toyama</i>
06-7	Investigation of changes in leukocyte telomere length in urological cancer patients	Haruhiko Wakita (Japan) <i>Department of Urology Juntendo University, Graduate School of Medicine</i>

Poster Presentation

P-1	A case of laparoscopic resection of primary mature retroperitoneal teratoma of the adrenal region	Yuki Matsui (Japan) <i>Department of Urology, Hitachi Medical Center</i>
P-2	A case of SICCA syndrome during ipilimumab and nivolumab therapy for metastatic renal cell carcinoma	Takuya Segawa (Japan) <i>Department of Urology Faculty of Life Sciences Kumamoto University</i>
P-3	Two cases of ipilimumab and nivolumab therapy for hemodialysis patients with renal cell carcinoma	Kyohei Matsushita (Japan) <i>Department of Urology, Saga University Faculty of Medicine</i>
P-4	t(6; 11) translocation renal cell carcinoma, successfully diagnosed by using FISH	Hidekazu Nishizawa (Japan) <i>Department of Urology, Faculty of Life Sciences, Kumamoto University</i>
